I Introduction

Cambridge Elementary School (CES) is located in the neighborhood known as the “Monument Corridor” in central Concord, California. It is a culturally rich, low-income, neighborhood. The school serves approximately 682 students in grades K-5. Significant sub-group populations include: 98% socio-economically disadvantaged (SD) students, and 79.2% English Learners (EL).

The ethnic breakdown of our student population is as follows:

| | |
|--------------------------------|--------------|
| Hispanic/Latino | 90.2% (+0.4) |
| American Indian/Alaskan Native | 0.0% (same) |
| Asian | 2.2% (same) |
| Pacific Islander | 1.5% (-0.1) |
| Filipino | 0.7% (-0.3) |
| African American | 1.8% (-0.9) |
| White | 3.1% (+.6) |
| Other/Declined to State | 0.6% (+0.5) |

(Numbers in parenthesis indicate an increase or decrease from the 2008-09 school year.)

Previous Reform Efforts

Previously, Cambridge has been involved in initiatives to better serve our student population, with a focus on the needs of our English Language Learners. In 2004, we received the California School Reform (CSR) grant and began the process of identifying key instructional strategies. Efforts toward this focus included professional development in Frontloading and Systematic English Language Development (ELD). This CSR grant rolled into the High Priority School Grant (HPSG) that provided the support of an outside entity (Alameda County Office of Education) to support our implementation of the Cycle of Inquiry (COI) and develop Strategic/Specific Measurable Attainable Results-oriented Time-Bound (SMART) goals using student assessment data. In 2003, Reading First and the Houghton Mifflin adoption began and provided 5 years of data analysis support and professional development and coaching in “best practices” for language arts instruction. Additionally, a school-wide focus on professional development and coaching in Structured Student Engagement (SSE) has increased our students’ use of academic English.

In 2008-2009, we were awarded the Quality Education Investment Act (QEIA) grant that enabled us to reduce class size in Kindergarten to 20:1 and in grades 4-5 to 25:1. QEIA currently maintains class size reduction (20:1 and 25:1) in all grades. More recently, our site has restructured our Leadership team with the guidance of the District School Leadership Team (DSLTL). This created a system for communication and a framework for site-based decision-making.

In 2008-09, Cambridge initiated a Primary Language program in Kindergarten. Two classes of students receive language arts instruction in Spanish. This program has expanded with those students as they move to first grade and will continue as they progress through the grades. English instruction in language arts will be introduced to the students in second grade and will increase each year with full transition to English by fifth grade. Students who are ready to transition earlier will be mainstreamed into Structured English Immersion (SEI) classes.

Our Parent Teacher Association (PTA) has grown in size and provides support for our students and families. Our parents continue to take the initiative to request family nights, education, and services to help them support their students.

Current Reform Efforts

Cambridge's reform efforts include ongoing training in Professional Learning Communities (PLC) that builds our capacity and skills around data analysis, student interventions and school climate and culture. Teachers are released in grade level teams one morning per week for one hour to review student assessment data in Language Arts and Math and essential standards. With the assistance of support staff (Reading coaches, Math coach, EL coaches), they develop systems to address the needs of strategic and intensive students. This work continues on 2 Wednesday afternoons each month.

The Response to Intervention (RTI) model has also been implemented. In order to monitor student progress, we have combined our Student Success Team (SST) and the Intervention committee. Together they review student assessment data and monitor progress as students proceed through the intervention pyramid. They also identify students for specific intervention programs.

To meet the needs of our intensive and strategic learners, grade level student groupings, based on skill and concept needs, have been developed to provide focused needs-based instruction. Grade level staff has analyzed assessment results to identify students for specific skill groups. Support staff and grade level staff coordinate schedules in order to provide smaller student to teacher ratios for the intensive groups. Reading intervention materials have been utilized including Systematic Instruction in Phoneme Awareness, Phonics and Sight Words (SIPPS). The ELD coach provides intervention support for recent arrivals and intensive level English Learners.

ADEPT, CELDT and reclassification data indicate the implementation of Systematic ELD has been increasingly effective as new district-provided lessons are utilized school-wide. An ELD coach has provides model lessons and materials to support student progress in ELD with the goal of all students being reclassified by fifth grade. Additionally, the ELD coach provides assessment data for teacher review and analysis.

Our parent involvement continues to grow and parent leaders provide support for our school community and our families. We have combined our School Site Council (SSC)

with our English Learner Advisory Council (ELAC) and moved the meetings to Friday mornings which has increased participation.

With these reforms in place, Cambridge continues to make steady student performance progress and has increased its Academic Performance Index by 101 points in three years. In 2009, Cambridge met its Academic Performance Index (API) target with an increase of 28 points; 658 to 686. This is a 33 point increase over the last two years. Cambridge has also met its Adequate Yearly Progress (AYP) criteria for the school-wide population and all targeted subgroups through Safe Harbor. Cambridge is in Year 5 of Program Improvement (PI). This year’s goal is to exit PI status by meeting our AYP Annual Measureable Objective (AMO). Funding from the Quality Education Investment Act (QEIA) and Title I, along with other significant State and Federal monies, provides valuable resources for raising achievement.

II Needs Assessment

In the 2009-2010 school year data was gathered from various sources to complete a needs-assessment at Cambridge Elementary School. Data sources include: School Plan for Student Achievement (SPSA) documentation, staff professional development surveys, Academic Program Survey, math and language arts data analysis utilizing District Progress Assessments and formative assessments, A Developmental English Proficiency Test (ADEPT), California English Language Development Test (CELDT) and CST results, and English Learner Adequate Yearly Progress (EL AYP) reports per district guidelines. The Cycle of Inquiry process is used to analyze student assessment data and plan appropriate instructional programs.

| Needs Analysis | Evidence |
|---|---|
| Inconsistent implementation of the adopted curriculum. | Classroom walkthroughs Grade-level meeting minutes CST, CELDT and ADEPT (summative and formative data analysis) |
| Faithful use of school-adopted strategies that intensify student engagement and responsiveness to instruction (Structured Student Engagement) | Classroom walkthroughs and quick visits Professional Development documentation Student performance data |
| School-wide investment in the strategies/reform efforts for implementation of effective Professional Learning Communities | Staff survey Grade-level PLC meeting minutes |
| Consistently high numbers of students requiring intensive Tier II and III interventions. | SST Log Intervention documentation Intervention teachers and Support staff schedules District Intervention Folders in cums |

| | |
|--|---|
| | ELD Profile folders |
| Our students' progress toward achievement goals is too slow as compared to similar schools. | Analysis of similar school CST and CELDT data Just For the Kids website |
| Behavior referrals reflect inconsistent implementation and monitoring of school-wide behavior plan | Recess detention binder School Climate Committee meeting minutes Class Meeting lesson plans |
| Current assessments evaluating student performance during the school year are not aligned with annual CST student performance. | Edusoft data analysis Data screens Formative and summative assessment results |

Transformational Plan for Success Strategies

The overarching goal of our Transformation for Success Plan focuses on rigorous implementation of California State standards in English Language Arts, Mathematics and English Language Development. The restructuring plan described below addresses our four Essential Component strategies in English Language Arts, Math, English Language Development and Intervention:

2000 - 2009 Accountability Progress Report

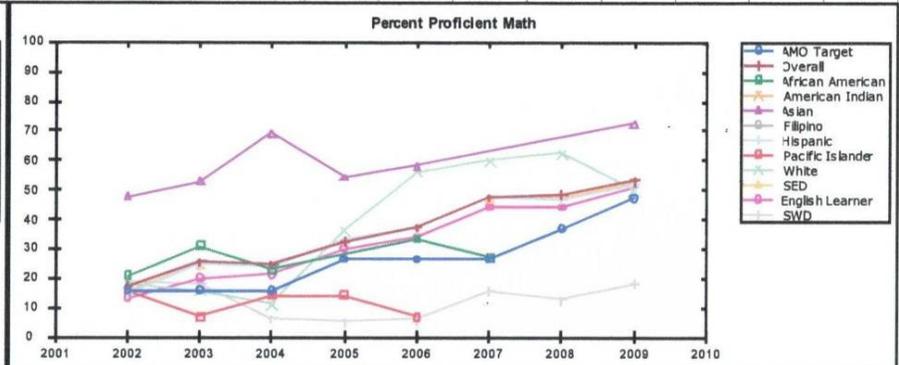

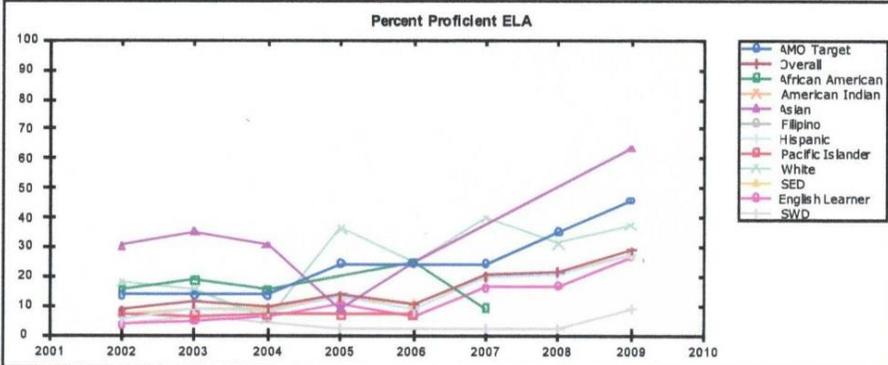

Cambridge Elementary - 07 - 61754 - 6003982

2000 - 2009 Academic Performance Index (API)

| 2000 - 2009 API Results | 1999 - 2000 API Growth | | 2000 - 2001 API Growth | | 2001 - 2002 API Growth | | 2002 - 2003 API Growth | | 2003 - 2004 API Growth | | 2004 - 2005 API Growth | | 2005 - 2006 API Growth | | 2006 - 2007 API Growth | | 2007 - 2008 API Growth | | 2008 - 2009 API Growth | |

III. Schedule of Presentations to Stakeholders

Regarding the Cambridge Elementary School Transformational Plan for Success

| Date | Stakeholders | Information Presented | Input Received |
|-------------|--|---|---|
| 4/14/10 | Staff | Current info regarding PLAS status and process | Questions regarding implications for our school were addressed. |
| 4/21/10 | Leadership | Overview of requirements, template. Calendar to meet and formulate plan. | Clarification of process and suggestions for school improvement |
| 4/13/10 | Parents at Family STAR Night – preparing your child for the CST. | Summarize Program Improvement status. Inform parents of state designation of PLAS and the Tier III schools. Explain restructure meetings. | Some parents questioned the emphasis on the test. “Are we concerned about the test or the students?” |
| 4/28/10 | Leadership | Begin process of looking at needs (data), developing strategies and going through the EPCs. | Review research and data to identify needs and develop strategy proposals for stakeholder input. |
| 5/1/10 | Leadership | Continue work from 4/28/10. | Included strengthening school climate as a method of increasing student focus on academics. |
| 5/5/10 | Staff | Update regarding SIG grant application process, and facilitation of group input for strategies .I-IV | Consider year round schools, improve After School Program to include more academics, strengthen staff collaboration and collegiality. |
| 5/13/10 | PTA | Update parents regarding reason for restructure, needs assessment and four strategies. | |
| 5/21/10 | SSC | Review of draft Transformational plan and retain group input from parents and staff. | |
| 5/28/10 | School Board | Presentation of AGT plan to the School Board | |

Cambridge Elementary Transformational Plan for Success Strategies Worksheet

| | | |
|--|--|---|
| <p>Essential Program Components (EPC)</p> | <p>Strategy #1 ELA – K-5 - Fully implement a rigorous, standards-based Language Arts program with fidelity. Year 1: In primary grades, the instructional focus will be on decoding and sight word fluency. In upper grades, the focus will be comprehension. Year 2: K-5 - Implement a sequential, articulated, rigorous writing program.</p> | <p>Strategy #2 Math – Fully implement a rigorous, standards-based, K-5 math program, with fidelity. Focus on math fact automaticity, conceptual understanding and math reasoning.</p> |
| <p>Student Achievement Goal/Target</p> | <p>K - From fall 2010 to spring 2011, 70% of Kindergarten students will read proficiently at a RAP Level 3 or above. 1-5th – From fall 2010 to spring 2011, 68% of students will score 70% or more on Curriculum Associates benchmark assessments. 1-5th – By June 2011, 70% or more of the students will score proficient on RAP/QRI.</p> <p>Over the next three years, Cambridge will achieve an API of 801 with CST ELA Student Performance Band breakdowns as follows:</p> | <p>K- In March 2010, Kindergarten students were given a 7-part NS 1.0 end of trimester benchmark assessment. The grade level average percent proficient on each question was 63%. By June, 2011, the average percent proficient will increase to 80% as measured by the end of trimester benchmark assessment.</p> <p>1-5th – From fall 2010 to spring 2011, 69% of students will score 70% or more on Curriculum Associates benchmark assessments. 1-5th – By June 2011, the percent of students scoring proficient on math fact</p> |

Restructuring/Turn around (Transformational) Strategies Worksheet

| | | |
|--|---|---|
| <p>Essential Program Components (EPC)</p> | <p>Strategy #3 ELD – We will increase the number of students reclassified to Fluent English Proficient (RFEP).</p> | <p>Strategy #4 Climate – We will build and support a safe environment conducive to teaching and learning.</p> <p>Intervention – We will identify appropriate/targeted interventions for students and monitor their progress using a data-driven, systematic approach to increase the number of proficient students at all grade levels.</p> |
| <p>Student Achievement Goal/Target</p> | <p>From Spring 2010 to spring 2011, the number of students being reclassified will increase from 37 to 50 as measured by district reclassification criteria.</p> | <p>From Spring 2010 to Spring 2011, 80% of students receiving targeted interventions will meet their SMART goals.</p> <p>From Spring 2010 to Spring 2011, students receiving Resource services will increase their proficiency levels on CMAs and CSTs from 9% in ELA to 56%?, from 18% to 57% in Math.</p> <p>As a result of our work on school climate, office referrals and suspensions will be reduced annually by 50%. This environment will support schoolwide CST and learning goals.</p> |
| <p>Instructional Program</p> | <p>Year 1: During ELD, strengthen the link</p> | <p>Year 1: Identify a computer-based ELA and</p> |
